## What are Hackathons?

---

Hackathons are social coding events where teenagers come together for a weekend to brainstorm ideas, develop prototypes, and create innovative solutions to specific challenges or problems.

To learn more about hackathons, you can refer to Hack Club's definition of hackathons at <https://hackclub.com/hackathons/>.

## Project Overview

---

SH Hacks 2024 is a hackathon event for middle school and high school students from bilingual or international schools in Shanghai, aiming to provide a platform for innovation and technology exchange. The event is expected to host around 30 participants and will last for two days.

## Event Goals

---

The goal of this event is to enhance the creativity and teamwork skills of middle school and high school students by providing them with a platform for innovation and technology exchange. In addition, we aim to inspire participants' interest in technological innovation and encourage them to become future technology leaders.

## Time and Location

---

March 29th-30th, 2025 (Weekend)

Day 1: 09:00 - 20:00

## Workshops

During the event, participants will have the opportunity to attend numerous workshops tailored to hackers of all skill levels. These workshops will cover a variety of topics, including Python, Next.js, and TailwindCSS.

It is fully optional for participants to attend any workshops, and they are encouraged to explore areas of interest that align with their skills and goals. Additionally, participants are welcomed to run their own workshops, to practice their leadership skills and sharing their knowledge.

## Conclusion

---

We believe that this event will provide participants with an opportunity to showcase and explore technological innovation. We hope that participants will experience the joy of technological innovation and gain growth and progress in teamwork. This event aims to encourage and cultivate the innovative spirit and teamwork skills of high school students, and also help them better understand and master the forefront and development direction of technology.
